# Jigsaws with Indian Themes

- **We have our own collection of jigsaws from which you can choose. The enclosed sample puzzles made by us range up to 500 in pieces and 3 feet in size. All our jigsaws are in Indian themes- places, culture, traditions, personalities that we all can relate to.**
- **You may quote the Serial Number mentioned with each of the photographs. We keep on adding to them and can give you more options. You may also provide us a photograph out of which you want a jigsaw puzzle to be made. Whichever way, we will suggest to you the best size and complexity in which it can be made to suit your liking.**
- **These jigsaws are also part of our library services in Pune- just like a book library, you can take the puzzle, do it at home and exchange it next time.**
